We welcome as many familiar faces in the audience as possible! Families that drive may take their kids home right after the **clinic** is finished.

Please bring your instrument in prior to performance to be sure it is in proper playing condition. DO NOT wait until Contest week to have repairs done!

Equity and Access in Music Education

March is designated as ***Music in Our Schools Month*** by the National Association of Music Education. We can celebrate in many ways!

Attend a student performance and celebrate their musical success.

Encourage your child to stay in music. As students plan their schedules for next year, help them remember to keep music a part of their daily life at school.

Share the importance of music education in our schools with others. Your positive words go a long way in helping others see the importance of music education in our childrens' lives.

Listen to music with your child. Share one of your favorite artists or listen to one of theirs.

Did you play an instrument as a child, or do you still play? Dust off your old instrument and play just for fun.

Thank you for supporting your child's music education through your encouragement and commitment.
